

I am opposed to the FCC implementing any proposal that would lessen Indiana's Telephone Privacy Law Protection. My home is my sanctuary, meaning a refuge a place of protection. Indiana's law has given me peace in my sactuary from telemarketers. Since inacted, I have received only one unwanted call. Before the law was in place I would receive four to six calls an evening!

Indiana's Telephone Privacy Law has returned to me the privacy of my home and time with my family without interruption or added financial cost. The Federal Government can keep it's nose out of my state law!

I believe in free enterprise, however there are limits to all our freedoms. The privacy of my home is sancrosanct.
